REQUEST FOR CORRECTION OF PATENT APPLICATION PUBLICATION

Sir:

Pursuant to 37 C.F.R. § 1.221(b), Applicants respectfully request a corrected patent application publication for the above identified application.

The above identified application was published October 21, 2004 as U.S. Pub. No. 2004/0206769. All of the identifying information on the cover page of the publication is correct (except for the Abstract). However, the abstract, specification, drawings and claims shown in the publication are not the abstract, specification, drawing and claims as filed for the present application. The correct abstract (1 page), specification (19 pages), drawings (6 pages) and claims (4 pages) are readily available in the Image File Wrapper within the USPTO PAIR system.

It appears that the specification, drawings and claims that appear in U.S. Pub. No. 2004/0206769 belong to Application No. 10/657,386, which has the same Assignee as the present application.

This error is a material mistake that is apparent from the Office's records. Applicants never received a Notice of Publication in the above identified application. This error was only recently brought to the Applicants' attention by a recent office action in Application No. 10/657,621. Applicants are submitting this request for correction within two months of discovery of the error.

The undersigned may be reached at: (770) 587-8640.

Respectfully submitted,

SANDERS ET AL
